A Healthcare Product by TechEarnest · Empowering Possibilities

THE SMART CHOICE FOR HOSPITALS

Why Health360?

Simple

One hospital platform — registration to discharge — plus a patient app that mirrors the same journey.

Connected

Desk, doctors, nurses, lab, pharmacy, and billing share one encounter spine with the patient mobile portal.

Personal

Patients see vitals, labs, Rx, and get health tips, fitness & yoga cues, and diet planning guidance.

Hospital-first

Built for owners, clinicians, and IT — RBAC, audit trails, and multi-branch SaaS from day one.
