

HEALTH360 · EXPERIENCE DIGITAL CARE

Your hospital. One platform.

Health360 by TechEarnest — complete digital hospital management from registration to follow-up, on one patient journey.

PURPOSE

One-page product story for hospital leaders.

AIM

End paper Rx & fragmented tools.

HOW

Modular services on one encounter spine.

COMPLETE HOSPITAL OS · MODULAR · SECURE

OPD & QUEUE

Live tokens, desk arrive, walk-ins, appointments, visit status sync.

CLINICAL HUB

Notes, diagnosis catalogs, vitals, wellness plans, checkout gate.

LAB & PHARMACY

Book → sample → report · signed e-Rx · dispense · inpatient MAR.

ANALYTICS & RBAC

Dashboards, lab trends, role-based access, multi-hospital SaaS.

Hospital services

UHID & portals

Lifelong identity · patient & staff portals · web + mobile

E-Rx & wellness

Signed prescriptions · follow-up · care package

IPD · billing · assets

Beds, invoices, biomedical & facility assets

Why hospitals choose Health360

- **Purpose:** present Health360 as TechEarnest's ready hospital OS.
- **Aim:** remove paper slips, lost reports, and tool sprawl.
- **How:** modular clinical + ops services on one encounter spine.
- **Who:** CIOs, clinicians, pharmacy/lab leaders, IT partners.

Assets

INCLUDED

Hospital Asset Management

Biomedical, beds, facility & IT assets — clinical HMS plus enterprise visibility.

Remember from this flyer

- Complete hospital OS — not one module
- One patient journey from UHID to follow-up
- Enterprise DNA: ServiceNow · Salesforce · Microsoft
- RBAC, audit trail, multi-hospital SaaS
