

Purpose-built flyer for complete hospital management with AI & modular services

Purpose: advertise Health360 as TechEarnest’s hospital operating system. **Aim:** show how AI-assisted workflows and service modules replace fragmented tools. **Goal:** one memorable product story — patient journey connected from OPD to assets.

Why create this flyer

Carry a single-page story into meetings, stalls, and partner briefings without a long deck.

What it aims for

Clarity on modules, AI value, and TechEarnest credibility in under one minute of reading.

Who it targets

Hospital CIOs, medical directors, pharmacy/lab leaders, and IT partners.

Service modules — complete hospital coverage

Module service	Capability delivered
Patient & UHID	Lifelong identity, profile, consent, timeline across visits
Scheduling & OPD	Book, arrive, live queue, tokens, doctor reassignment
Clinical + Wellness	Encounter hub, Dx catalogs, e-Rx, wellness plan, follow-up
Lab & Pharmacy	Hospital lab journey, report notify, send Rx, dispense, MAR
IPD · ICU · OT · Billing	Beds, nursing, theatre notes, encounter invoices
AI Analytics & Assets	Health score, lab trends, biomedical / facility / IT assets
